GET FREE NALOXONE & TRAINING

NALOXONE QUICKLY SAVES LIVES BECAUSE IT CAN QUICKLY RESTORE NORMAL BREATHING TO A PERSON WHOSE BREATHING HAS SLOWED OR STOPPED AS A RESULT OF OVERDOSING ON PRESCRIPTION OPIOID MEDICATIONS, HEROIN, OR DRUGS THAT ARE ADULTERATED AND CONTAMINATED WITH AN OPIOID LIKE FENTANYL (E.G. COCAINE, METHAMPHETAMINE).

WHO SHOULD BE PREPARED

LOVED ONES

Are you worried about a family member or close friend who uses prescription narcotics or heroin?

NEIGHBORS

Are you likely to encounter someone who has overdosed from prescription narcotics or heroin in your neighborhood?

COMMUNITY MEMBERS

Are you likely to encounter someone who has overdosed from prescription narcotics or heroin in your community or on your job?

LEARN HOW TO HELP

Learn how to prevent, recognize and respond to an overdose emergency. It's free, confidential, and easily learned in 20 minutes.

NALOXONE SAVES LIVES

- During an overdose, a person's breathing can be dangerously slowed or stopped, causing brain damage or death.
- If you give naloxone to a person who has not taken an opioid medicine, it will not hurt them.
